

COURSE BUNDLES

Try one of these course bundles and save money while either learning to dive or enhancing your current diving skills!

Buoyancy Bundle

Just learning to dive? This is the bundle for you. Learning proper buoyancy while diving will help you feel more confident and enhance your overall diving experience. In the **Open Water course**, you will learn all the basic skills needed to be a certified diver. This includes buoyancy skills. However, most newly certified divers say they would like more practice with their buoyancy skills even after successful completion of the Open Water course. That is

where the **Peak Performance Buoyancy course** can help! Combine these two certifications and you will be well on your way to becoming a confident, safe diver with tons of new experiences to encounter!

Cost: \$480 – you save \$141 off the price of purchasing these two courses separately!

Prerequisites: none
